Music Processing

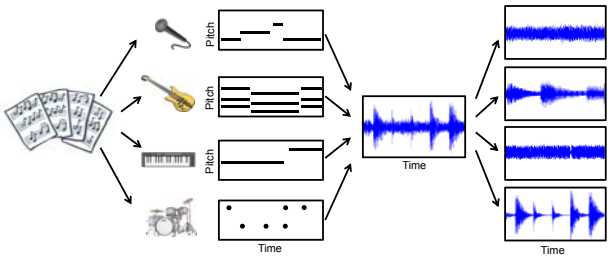
Musically Informed Audio Decomposition

- Extraction of main melody
- Separation of drum track
- Separation of instrumental voices
- Decomposition into individual note events
- Harmonic-percussive separation

Exploit musical knowledge to support decomposition process

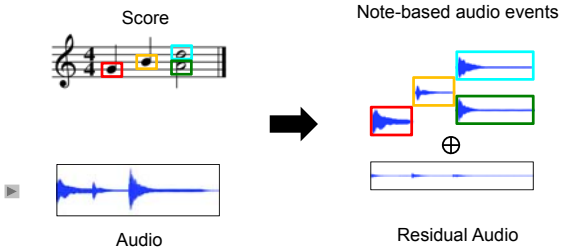
Score-Informed Source Separation

Exploit musical score to support separation process



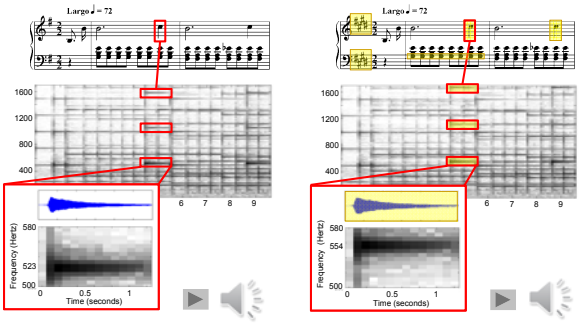
Score-Informed Audio Decomposition

Parameterize audio signal using score's note events



Score-Informed Audio Decomposition

Application: Audio editing



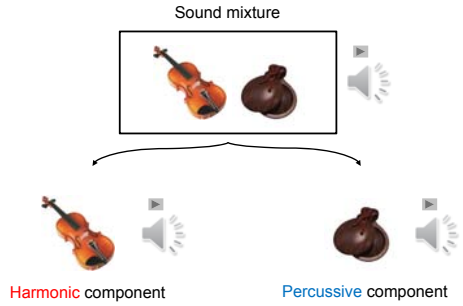
Musically Informed Audio Decomposition

- Harmonic-percussive-residual separation
- NMF-based audio decomposition
- Main melody separation

Musically Informed Audio Decomposition

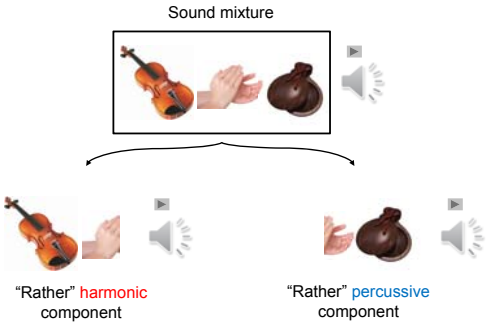
- Harmonic-percussive-residual separation
- NMF-based audio decomposition
- Main melody separation

Harmonic-Percussive Separation



[Ono et al. ISMIR 2008]
[Fitzgerald DAFx 2010]

Harmonic-Percussive Separation



[Ono et al. ISMIR 2008]
[Fitzgerald DAFx 2010]

Harmonic-Percussive Separation

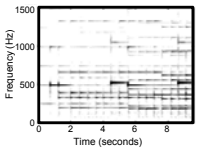
Musically Informed Audio Decomposition

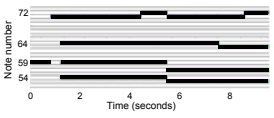
- Harmonic-percussive-residual separation
- NMF-based audio decomposition
- Main melody separation

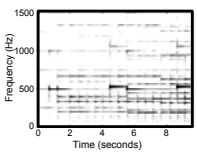
NMF-based Audio Decomposition

NMF-based Audio Decomposition

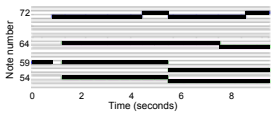


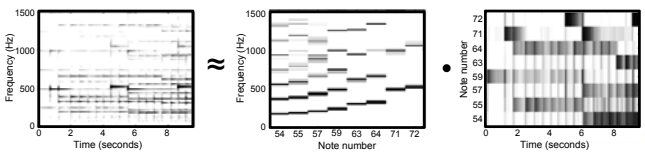
NMF-based Audio Decomposition



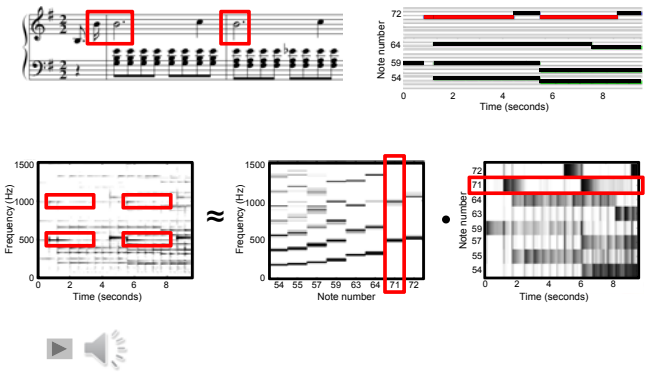


NMF-based Audio Decomposition





NMF-based Audio Decomposition



NMF-Decomposition

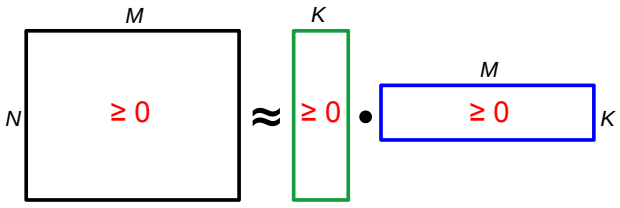
Idea:
- Factorization of spectrogram

Advantages:
- Flexible and easy to implement
- Efficient

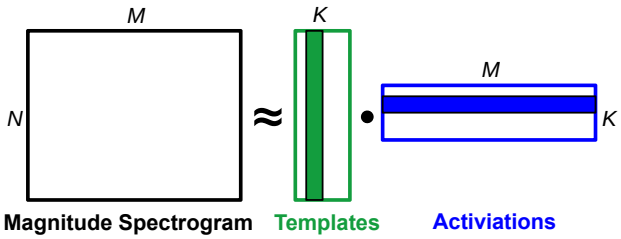
Problems:
- Decompostion difficult to control
- Often no semantic meaning

Strategy: Multiplicative update rules allow for introducing hard constraints to control the decomposition

NMF (Nonnegative Matrix Factorization)



NMF (Nonnegative Matrix Factorization)



Templates: **Pitch + Timbre** **"How does it sound"**

Activiations: **Onset time + Duration** **"When does it sound"**

Pitch shift

Conclusions

- Musically informed audio decomposition
  - Harmonic-percussive-residual separation
  - NMF-based audio decomposition
  - Main melody separation
- Separation of instrumental sources hard
- Extracting of human voices even harder
- Evaluation?
- Applications?
